Fuzzy Math: The Essential Guide to the Bush Tax Plan Paul Krugman

Wielding his widely recognized powers of explanation, Paul Krugman lays bare the hidden facts behind the \$2 trillion tax cut.

With huge budget surpluses just ahead, the question of whether to cut taxes has shifted to when? and by how much? With *Fuzzy Math*, Paul Krugman dissects the Bush tax proposal and shows us who wins, who loses, and how quickly the tax cuts will consume the surplus. Always the equal-opportunity critic when it comes to faulty economics, Krugman also tucks into the Democratic alternatives to the Bush plan.

This little book packs a big wallop. Together with major media appearances, it puts Krugman's wisdom and steely-eyed analysis firmly at the center of the debate about how to spend upwards of \$2 trillion. It may very well change the course of history.
