The Breath of Olive Trees

Antonio De Cairu

The Breath of Olive Trees Antonio De Cairu

The breath of Olive Trees is an intriguing work that combines fact and fiction, reminiscences and imagination, and reality and fantasy with the author's philosophical musings and a surreal metaphorical conclusion. Along the way, the reality of late 1960's life in Portugal under the right-wing Salazar dictatorship is graphically brought to life as the author describes both the threat of imprisonment and possible torture for sedation and the life of hardship for the poorest members of society. With this work, his second in the English language and in the UK, Antonio de Cairu confirms his reputation as an inspired and gifted creator of thought-provoking images through the use of the written word.
