The Simple Home: The Luxury of Enough (American Institute Architects) Sarah Nettleton, Frank Edgerton Martin

For everyone who craves a simpler lifestyle, not only in how they live but also where they live, The Simple Home features 21 houses and presents six different approaches to creating a home that realizes its full potential both simply and elegantly.

We are living in complex times, in a commodified, virtual, and overstimulated culture. One response to high levels of complexity and overstimulation is to look for yet another gadget or closet organizer to simplify our lives. But the answer lies somewhere else. The road to a simpler more satisfying life begins with a clear-eyed examination of the choices we are making for our time--and that includes choices about where we want to live.

The Simple Home presents six paths to simplicity, each illustrated by human-scaled, unadorned homes with straightforward floor plans and forms. These are open, light-filled homes (with rooms or spaces that are often multipurpose) that express their beauty in their utility and practicality. Simple homes are low maintenance and often green, designed for homeowners who wish to embody a different set of values in their housing choices than the run-of-the-mill starter castles littering the landscape.

The 6 Paths to Simplicity:

1. Simple is Enough
2. Simple is Thrifty
3. Simple is Flexible
4. Simple is Timeless
5. Simple is Sustainable
6. Simple is Refined

From reader reviews:

Jeffrey Smith:

As people who live in the particular modest era should be upgrade about what going on or information even knowledge to make them keep up with the era that is always change and move forward. Some of you maybe will update themselves by looking at books. It is a good choice for you but the problems coming to you is you don't know which you should start with. This The Simple Home: The Luxury of Enough (American Institute Architects) is our recommendation to help you keep up with the world. Why, because book serves what you want and want in this era.

Shelia Lopez:

Reading a guide can be one of a lot of exercise that everyone in the world likes. Do you like reading book so. There are a lot of reasons why people fantastic. First reading a reserve will give you a lot of new facts. When you read a guide you will get new information mainly because book is one of many ways to share the information or their idea. Second, reading a book will make you more imaginative. When you looking at a book especially fictional book the author will bring you to definitely imagine the story how the characters do it anything. Third, you could share your knowledge to other individuals. When you read this The Simple Home: The Luxury of Enough (American Institute Architects), it is possible to tells your family, friends and soon about yours reserve. Your knowledge can inspire others, make them reading a publication.

Jacquelin Vasquez:

The reason? Because this The Simple Home: The Luxury of Enough (American Institute Architects) is an unordinary book that the inside of the e-book waiting for you to snap the item but latter it will distress you with the secret this inside. Reading this book close to it was fantastic author who have write the book in such incredible way makes the content within easier to understand, entertaining means but still convey the meaning completely. So , it is good for you for not hesitating having this nowadays or you going to regret it. This book will give you a lot of positive aspects than the other book get such as help improving your proficiency and your critical thinking approach. So , still want to hold up having that book? If I were you I will go to the e-book store hurriedly.

Larry Gregg:

Many people spending their time by playing outside using friends, fun activity with family or just watching TV 24 hours a day. You can have new activity to spend your whole day by studying a book. Ugh, ya think reading a book will surely hard because you have to bring the book everywhere? It alright you can have the e-book, delivering everywhere you want in your Touch screen phone. Like The Simple Home: The Luxury of Enough (American Institute Architects) which is getting the e-book version. So , try out this book? Let's see.
