## Bioelectromagnetic and Subtle Energy Medicine, Second Edition

**Bioelectromagnetic and Subtle Energy Medicine** focuses on a wide variety of evidence-based bioelectromagnetic and subtle energy therapies for disorders ranging from cancer, cardiomyopathy, and Parkinson's disease to depression, anxiety, and pain. Since publication of the first edition more than a decade ago, there have been so many advances in these and other diseases, that a thorough revision is required for this resource to remain the gold standard in a burgeoning field.

This second edition updates previous topics and features many new chapters describing novel approaches that promise to replace drugs or surgery because they are more effective and much safer, such as rTMS for depression, MRI-Guided Focused Ultrasound for bone and uterine tumors, and TheraBionic LEET for liver cancer.

Others discuss biological water (H<sub>3</sub>O<sub>2</sub>) that acts like a battery, health benefits of Earthing, malignant and other brain tumors from cell and cordless phones, visualizing and measuring energy fields in humans and nature, making sense of homeopathy and "memory of water," basic science support for acupuncture, electrosensitivity, ion cyclotron resonance, the role of the pineal gland, the health effects of solar storms and terrestrial influences, and why Bioelectric Resonance Therapy bridges Chinese and Western medicine.

This is only a sampling of the 50 chapters contributed by authorities from the United States, Europe, Scandinavia, Russia, China, Japan, and Iran.
