Educational Psychology, MyLabSchool Edition

Robert J. Sternberg, Wendy M. Williams

Educational Psychology, MyLabSchool Edition Robert J. Sternberg, Wendy M. Williams

Written with an emphasis on helping readers understand and develop expertise in both teaching and learning, this book focuses on the science of educational psychology and the art of what it takes to become an expert teacher. Rather than glossing over theory and focusing primarily on skills, Sternberg and Williams offer a crystal-clear, in-depth presentation of both the science (principles and research) and art (practice and applications) of teaching. Principles are illustrated through the practice of expert teachers to encourage personal reflection by the reader. By helping readers discover what it takes to become expert students, as well as expert teachers, the book gives unique insight into the teaching-and-learning process. Emphasis throughout the book on creative, analytical, and practical thinking skills encourages deeper understanding of concepts, stretches the thinking process, and applies learning to everyday events. This Triarchic Theory of Human Intelligence, developed by Robert Sternberg, specifically addresses important issues such as critical thinking, diversity, and student achievement.
