## **Hidden History, Rain Engineering and UFO Reality** Trevor James Constable

This book covers three interesting subject areas that span over a half-century in the life of Trevor James Constable. The hidden history area involves little-known military men and their amazing heroics. The rain engineering sections document the evolution of the technology along with the resulting proof of success the author experienced from around the world. If taken further, this technology could be a tremendous help to humanity. Lastly, the reality of UFOs covers flying, biological creatures that were found to reside in the hidden ultraviolet spectrum of our skies. When witnessed, these beings can be mistaken for unknown craft that are thought to be piloted by humans or aliens rather than being alive in their own right and resident to the earth. The pioneering work of Trevor James Constable is still ahead of its time. The compelling scientific proof presented here leaves little doubt that we have much more to learn about ourselves and the world around us.
