Students of organic chemistry are expected to consume much information in a relatively short period of time. Most have had no clue to the expanse of knowledge that organic chemistry explores. Students are required to memorize elements and molecules that are commonly used in organic chemistry. Additionally, they are required to memorize formulas and chemical reactions, which is clearly the most difficult part of the course. Having an organic chemistry reaction study guide can help the student by supplying a quick reference to the most commonly used reactions. The guide can be reviewed when the student has some down time.
