Beginning PHP 5.3

Matt Doyle

Beginning PHP 5.3 Matt Doyle
This book is intended for anyone starting out with PHP programming. If you've previously worked in another programming language such as Java, C#, or Perl, you'll probably pick up the concepts in the earlier chapters quickly; however, the book assumes no prior experience of programming or of building Web applications.

That said, because PHP is primarily a Web technology, it will help if you have at least some knowledge of other Web technologies, particularly HTML and CSS.

Many Web applications make use of a database to store data, and this book contains three chapters on working with MySQL databases. Once again, if you're already familiar with databases in general — and MySQL in particular — you'll be able to fly through these chapters. However, even if you've never touched a database before in your life, you should still be able to pick up a working knowledge by reading through these chapters.

From reader reviews:

Dwight Case:

Throughout other case, little individuals like to read book Beginning PHP 5.3. You can choose the best book if you want reading a book. Providing we know about how is important a new book Beginning PHP 5.3. You can add expertise and of course you can around the world by a book. Absolutely right, mainly because from book you can realize everything! From your country until foreign or abroad you will end up known. About simple matter until wonderful thing you could know that. In this era, we can easily open a book or perhaps searching by internet product. It is called e-book. You should use it when you feel weary to go to the library. Let's learn.

Gary McIntosh:

As people who live in the modest era should be update about what going on or data even knowledge to make all of them keep up with the era which can be always change and move ahead. Some of you maybe can update themselves by reading through books. It is a good choice in your case but the problems coming to an individual is you don't know which one you should start with. This Beginning PHP 5.3 is our recommendation so you keep up with the world. Why, as this book serves what you want and need in this era.

Kellie Smith:

Reading a guide can be one of a lot of action that everyone in the world loves. Do you like reading book thus. There are a lot of reasons why people enjoyed. First reading a reserve will give you a lot of new details. When you read a e-book you will get new information simply because book is one of numerous ways to share the information or their idea. Second, examining a book will make anyone more imaginative. When you reading through a book especially fictional works book the author will bring you to imagine the story how the figures do it anything. Third, you may share your knowledge to other people. When you read this Beginning PHP 5.3, you could tells your family, friends and soon about yours reserve. Your knowledge can inspire the mediocre, make them reading a guide.

Lorraine Stark:

Spent a free a chance to be fun activity to complete! A lot of people spent their sparetime with their family, or all their friends. Usually they performing activity like watching television, going to beach, or picnic inside the park. They actually doing same every week. Do you feel it? Do you need to something different to fill your own free time/ holiday? May be reading a book may be option to fill your free of charge time/ holiday. The first thing you will ask may be what kinds of e-book that you should read. If you want to attempt look for book, may be the publication untitled Beginning PHP 5.3 can be very good book to read. May be it might be best activity to you.
