Calligraphy, the art of elegant, beautiful lettering, has increased in popularity over the last several years. From brides who want to address their wedding invitations to do-it-yourselfers who want to prepare certificates or make a family tree, and even for art journalers and scrapbookers who like creative text in their works, calligraphy books and classes are hot.

This **new-in-paperback** book will spark the interest of the calligraphy novice by introducing a new approach to lettering, one that combines a lively combination of traditional lettering styles, fun and scripty modern styles, and artsy street-style lettering, along with project ideas that incorporate creative lettering.

The book demonstrates the uses of traditional and cutting edge lettering tools, from classic calligraphy pens to bling-producing metallic foils and glue pens. It introduces a wide array of lettering styles with complete alphabets sample artworks that show an application. Fully stepped-out illustrations break down each letterform, taking the reader through each stroke and a large collection of gallery images provides further inspiration for how to use creative lettering in artwork.
