Echocardiographie fœtale (French Edition) Philippe Pézard, Françoise Boussion

L'examen cardiaque fœtal, étape cruciale autant lors du dépistage que de l'échographie diagnostique, doit être maîtrisé par le praticien pour identifier toutes les pathologies, malformatives ou secondaires à une affection plus générale, maternelle ou fœtale, y compris génétique.

C'est l'objectif de cet ouvrage, qui facilite la pratique quotidienne de l'échocardiographie fœtale en donnant **toutes les clés pour analyser, interpréter et poser un diagnostic aussi bien face au cœur normal que pathologique**. Il décrit toutes les techniques d'examen ultrasonores, détaille l'analyse du cœur normal et de l'hémodynamique fœtale, et indique la marche à suivre pour détecter et prendre en charge les troubles du rythme et de la conduction.

Pour chacune des cardiopathies, de la plus commune à la plus rare, sont rappelés l'anatomie, les signes d'appel et de certitude ainsi que les conséquences et possibilités de prise en charge anté- et postnatales.

De nombreux schémas, clichés d'échocardiographie, tableaux, encadrés et arbres de décision, ainsi que des séquences vidéo disponibles sur Internet, viennent enrichir ce contenu destiné tout autant à l'échographiste obstétrical - médecin ou sage-femme - qu'au cardiopédiatre ou néonatalogiste désirant s'investir ou se perfectionner en cardiologie fœtale.

From reader reviews:

James Benavidez:

Book is usually written, printed, or created for everything. You can know everything you want by a reserve. Book has a different type. As we know that book is important issue to bring us around the world. Beside that you can your reading talent was fluently. A publication Echocardiographie fœtale (French Edition) will make you to be smarter. You can feel more confidence if you can know about almost everything. But some of you think which open or reading a new book make you bored. It is not necessarily make you fun. Why they could be thought like that? Have you seeking best book or suited book with you?

Donna Barragan:

This Echocardiographie fœtale (French Edition) is great book for you because the content that is certainly full of information for you who else always deal with world and have to make decision every minute. This book reveal it information accurately using great manage word or we can state no rambling sentences within it. So if you are read that hurriedly you can have whole details in it. Doesn't mean it only provides straight forward sentences but difficult core information with splendid delivering sentences. Having Echocardiographie fœtale (French Edition) in your hand like keeping the world in your arm, data in it is not ridiculous just one. We can say that no book that offer you world throughout ten or fifteen moment right but this reserve already do that. So , this is certainly good reading book. Heya Mr. and Mrs. busy do you still doubt in which?

Miles Towles:

As we know that book is essential thing to add our information for everything. By a reserve we can know everything we really wish for. A book is a group of written, printed, illustrated or blank sheet. Every year was exactly added. This guide Echocardiographie fœtale (French Edition) was filled about science. Spend your time to add your knowledge about your research competence. Some people has different feel when they reading any book. If you know how big advantage of a book, you can sense enjoy to read a publication. In the modern era like right now, many ways to get book you wanted.

Tony Hogan:

Some people said that they feel bored when they reading a reserve. They are directly felt this when they get a half areas of the book. You can choose the book Echocardiographie fœtale (French Edition) to make your own personal reading is interesting. Your own personal skill of reading ability is developing when you such as reading. Try to choose straightforward book to make you enjoy you just read it and mingle the idea about book and reading through especially. It is to be first opinion for you to like to open up a book and read it. Beside that the e-book Echocardiographie fœtale (French Edition) can to be a newly purchased friend when you're sense alone and confuse using what must you're doing of this time.
