Farmacoterapia ocular: aplicaciones clínicas de la farmacología ocular en el segmento anterior (Spanish Edition) Garzón Johanna

El rápido y continuo descubrimiento de genes y moléculas que tienen gran impacto en la patología ocular y en la farmacoterapia aplicada, son la base de la investigación y revisión que han permitido la primera edición del libro *Farmacoterapia ocular: aplicaciones clínicas de la farmacología ocular en el segmento anterior*. Los nuevos hallazgos en los mecanismos de acción de los fármacos, y su aplicación clínica, reflejan un texto comprimido, con lenguaje sencillo que facilita la comprensión y aprendizaje en profesionales y estudiantes de las ciencias de la visión en el tratamiento de los mecanismos propios de las patologías de párpados, conjuntiva, cornea, úvea y película lagrimal. La información se presenta en capítulos organizados: principios básicos de la farmacología ocular, biofarmacéutica y farmacocinética ocular, fármacos oculares autonómicos, farmacoterapia de la infección ocular, farmacoterapia de la inflamación ocular, antialérgicos oculares, farmacoterapia del ojo seco, antiglaucomatosos y tópicos especiales; al final del texto se encuentra la clasificación anatómo terapéutica clínica (ATE) internacional de los fármacos oftálmicos. Para la edición de este manuscrito, se ha contado con la revisión de expertos nacionales e internacionales, quienes han conceptualizado positivamente sobre este material, el cual ha sido escrito con amor y dedicación, con el fin que sea de utilidad y acceso a la información sobre la farmacoterapia ocular.

From reader reviews:

Brian Alexander:

What do you think of book? It is just for students since they are still students or the item for all people in the world, the particular best subject for that? Just simply you can be answered for that concern above. Every person has diverse personality and hobby per other. Don't to be pushed someone or something that they don't want do that. You must know how great as well as important the book Farmacoterapia ocular: aplicaciones clínicas de la farmacología ocular en el segmento anterior (Spanish Edition). All type of book can you see on many resources. You can look for the internet sources or other social media.

Alex Tipton:

Information is provisions for folks to get better life, information these days can get by anyone in everywhere. The information can be a know-how or any news even a problem. What people must be consider if those information which is inside the former life are hard to be find than now could be taking seriously which one would work to believe or which one the particular resource are convinced. If you get the unstable resource then you have it as your main information you will have huge disadvantage for you. All those possibilities will not happen within you if you take Farmacoterapia ocular: aplicaciones clínicas de la farmacología ocular en el segmento anterior (Spanish Edition) as your daily resource information.

Jeff Brown:

The reason why? Because this Farmacoterapia ocular: aplicaciones clínicas de la farmacología ocular en el segmento anterior (Spanish Edition) is an unordinary book that the inside of the publication waiting for you to snap that but latter it will shock you with the secret the item inside. Reading this book adjacent to it was fantastic author who write the book in such wonderful way makes the content on the inside easier to understand, entertaining means but still convey the meaning fully. So , it is good for you because of not hesitating having this any more or you going to regret it. This phenomenal book will give you a lot of advantages than the other book possess such as help improving your proficiency and your critical thinking method. So , still want to hesitate having that book? If I have been you I will go to the e-book store hurriedly.

Herbert Oakley:

As a college student exactly feel bored to reading. If their teacher requested them to go to the library or even make summary for some e-book, they are complained. Just minor students that has reading's internal or real their interest. They just do what the trainer want, like asked to go to the library. They go to right now there but nothing reading seriously. Any students feel that looking at is not important, boring along with can't see colorful photographs on there. Yeah, it is to be complicated. Book is very important for you personally. As we know that on this time, many ways to get whatever we really wish for. Likewise word says, ways to reach Chinese's country. So , this Farmacoterapia ocular: aplicaciones clínicas de la farmacología ocular en el segmento anterior (Spanish Edition) can make you sense more interested to read.
