Unsaturated Soils- Advances in Testing, Modelling and Engineering Applications A. Tarantino

This meeting was organized by the Department of Geotechnical Engineering of the University of Naples Federico II and the Department of Mechanical and Structural Engineering of the University of Trento. Postgraduate and postdoctoral researchers from different universities were invited to present their work. Speakers were encouraged to discuss at length the benefits of as well as the drawbacks and problems relating to their scientific work. This book contains peer-reviewed paper on unsaturated soils. Contributions focus particularly on new developments in laboratory testing, experimental data on compacted and natural soils, and constitutive and numerical modeling of unsaturated soil behavior.
