**Benedicto XVI habla sobre vida humana y ecología (Libros Palabra) (Spanish Edition)** Benedicto XVI A lo largo de sus casi ocho años de pontificado, Benedicto XVI ha prestado notable atención al valor sagrado de la vida humana y a todas las cuestiones relacionadas con su dignidad y características esenciales.

Al mismo tiempo, el Papa ha resaltado la función positiva del hombre en la creación, de modo que le lleve a vivir en armonía con la Tierra, de ahí la importancia que tienen los temas de ecología que en estas páginas se estudian.

Así, desde el ámbito de la medicina, teología, bioética, ecología y doctrina social de la Iglesia, se resaltan los puntos centrales del magisterio de Benedicto XVI sobre vida humana y ecología.

Se trata, pues, de un conjunto de más de veinte textos de extraordinario interés, seleccionados por los profesores de bioética y teología Emilio García Sánchez y Pablo Blanco, y comentados por ellos mismos y por Monseñor Iceta, obispo de Bilbao y el profesor Alfonso Martínez-Carbonell, de la Universidad CEU Cardenal Herrera, de Valencia.
