The Origins of the Slavic Nations: Premodern Identities in Russia, Ukraine, and Belarus Serhii Plokhy

This 2006 book documents developments in the countries of eastern Europe, including the rise of authoritarian tendencies in Russia and Belarus, as well as the victory of the democratic 'Orange Revolution' in Ukraine, and poses important questions about the origins of the East Slavic nations and the essential similarities or differences between their cultures. It traces the origins of the modern Russian, Ukrainian and Belarusian nations by focusing on pre-modern forms of group identity among the Eastern Slavs. It also challenges attempts to 'nationalize' the Rus' past on behalf of existing national projects, laying the groundwork for understanding of the pre-modern history of Russia, Ukraine and Belarus. The book covers the period from the Christianization of Kyivan Rus' in the tenth century to the reign of Peter I and his eighteenth-century successors, by which time the idea of nationalism had begun to influence the thinking of East Slavic elites.
