In Defence of Life: Essays on a Radical Reworking of Green Wisdom Julian Rose

Julian Rose presents a penetrating series of essays calling for urgent action to overcome the perilous state of our planet, at the local as well as global level. He both guides and challenges his readers to share with him a journey through the matrix-maze, and to come out at the other end a more aware and more self-assured human being. Drawing upon his life experiences as a farmer, campaigner, artist and social entrepreneur, Julian brings to our consciousness a way to break through the destructive patterns of our consumer-obsessed society and discover a simpler and more fulfilling way forward. Using essays exploring a wide range of pressing planetary concerns, he calls upon his readers to utilise the largely untapped power of their deeper instincts in coming to the aid of a severely depleted global environment and in striving for the amelioration of mankind's perilous human condition.
