**Sensing Technologies For Precision Irrigation (SpringerBriefs in Electrical and Computer Engineering)** Dubravko Culibrk, Dejan Vukobratovic, Vladan Minic, Marta Alonso Fernandez, Javier Alvarez Osuna, Vladimir Crnojevic

This brief provides an overview of state-of-the-art sensing technologies relevant to the problem of precision irrigation, an emerging field within the domain of precision agriculture. Applications of wireless sensor networks, satellite data and geographic information systems in the domain are covered. This brief presents the basic concepts of the technologies and emphasizes the practical aspects that enable the implementation of intelligent irrigation systems. The authors target a broad audience interested in this theme and organize the content in five chapters, each concerned with a specific technology needed to address the problem of optimal crop irrigation. Professionals and researchers will find the text a thorough survey with practical applications.

**From reader reviews:**

**George Green:**

Have you spare time to get a day? What do you do when you have far more or little spare time? Yes, you can choose the suitable activity regarding spend your time. Any person spent their spare time to take a walk, shopping, or went to the actual Mall. How about open as well as read a book eligible Sensing Technologies For Precision Irrigation (SpringerBriefs in Electrical and Computer Engineering)? Maybe it is for being best activity for you. You understand beside you can spend your time with the favorite's book, you can more intelligent than before. Do you agree with the opinion or you have additional opinion?

**Thomas Whitaker:**

Is it an individual who having spare time after that spend it whole day by watching television programs or just laying on the bed? Do you need something totally new? This Sensing Technologies For Precision Irrigation (SpringerBriefs in Electrical and Computer Engineering) can be the response, oh how comes? A fresh book you know. You are and so out of date, spending your extra time by reading in this fresh era is common not a nerd activity. So what these books have than the others?

**Sheila Lefevre:**

Don't be worry should you be afraid that this book may filled the space in your house, you may have it in e-book way, more simple and reachable. This kind of Sensing Technologies For Precision Irrigation (SpringerBriefs in Electrical and Computer Engineering) can give you a lot of close friends because by you taking a look at this one book you have factor that they don't and make you more like an interesting person. This book can be one of one step for you to get success. This book offer you information that possibly your friend doesn't learn, by knowing more than some other make you to be great persons. So , why hesitate? Let me have Sensing Technologies For Precision Irrigation (SpringerBriefs in Electrical and Computer Engineering).

**Erica Rawlins:**

As a scholar exactly feel bored to be able to reading. If their teacher inquired them to go to the library or to make summary for some reserve, they are complained. Just minor students that has reading's spirit or real their pastime. They just do what the instructor want, like asked to the library. They go to presently there but nothing reading significantly. Any students feel that examining is not important, boring and can't see colorful pictures on there. Yeah, it is to become complicated. Book is very important in your case. As we know that on this age, many ways to get whatever we wish. Likewise word says, ways to reach Chinese's country. So , this Sensing Technologies For Precision Irrigation (SpringerBriefs in Electrical and Computer Engineering) can make you feel more interested to read.
