## Head First Statistics Dawn Griffiths

Wouldn't it be great if there were a statistics book that made histograms, probability distributions, and chi square analysis more enjoyable than going to the dentist? *Head First Statistics* brings this typically dry subject to life, teaching you everything you want and need to know about statistics through engaging, interactive, and thought-provoking material, full of puzzles, stories, quizzes, visual aids, and real-world examples.

Whether you're a student, a professional, or just curious about statistical analysis, Head First's brain-friendly formula helps you get a firm grasp of statistics so you can understand key points and actually *use* them. Learn to present data visually with charts and plots; discover the difference between taking the average with mean, median, and mode, and why it's important; learn how to calculate probability and expectation; and much more.

*Head First Statistics* is ideal for high school and college students taking statistics and satisfies the requirements for passing the College Board's Advanced Placement (AP) Statistics Exam. With this book, you'll:

- Study the full range of topics covered in first-year statistics
- Tackle tough statistical concepts using Head First's dynamic, visually rich format proven to stimulate learning and help you retain knowledge
- Explore real-world scenarios, ranging from casino gambling to prescription drug testing, to bring statistical principles to life
- Discover how to measure spread, calculate odds through probability, and understand the normal, binomial, geometric, and Poisson distributions
- Conduct sampling, use correlation and regression, do hypothesis testing, perform chi square analysis, and more

Before you know it, you'll not only have mastered statistics, you'll also see how they work in the real world. *Head First Statistics* will help you pass your statistics course, and give you a firm understanding of the subject so you can apply the knowledge throughout your life.
