Il paradigma della specie umana: LA SPECIE NEUTRALE (Italian Edition) Mauro Mezzetti Sforza

Definire la posizione della specie umana, secondo i principi della Fisica naturale, significa descrivere il paradigma della natura dentro la quale la specie umana vive.

Non si perviene alla comprensione dell'origine, ma la classificazione fondata sulle proprietà delle specie animali e quella umana; permette una distinzione netta dalle specie animali e vegetali.

Il termine tecnico di neutralità della specie umana deriva dall'insieme di base della struttura atomica, il neutrone, come insieme composto e privo di cariche di energia nella loro massima forza, ma solo nella minima ed infinitesimale.

Il Neutrone come massa senza cariche dirette, è la parte fondamentale della struttura della materia; da ciò la coerenza della descrizione tecnica applicata alla specie umana.
