Paleogeography, Paleoclimate, and Source Rocks

Alain-Yves Huc

Paleogeography, Paleoclimate, and Source Rocks Alain-Yves Huc

A research conference on paleogeography, paleoclimate, and source rocks was held in Paris in July 1992 as a special meeting co-sponsored by the AAPG and the Institut Francais du Petrole (IFP). The goal of the research conference was to evaluate current understanding of source rocks as a guide for petroleum exploration.

During the course of the conference, special emphasis was placed on paleoplates and paleogeographic reconstructions, paleoclimate recreation and modeling, global source rock distribution, depositional setting of organic-rich sediments, sequence stratigraphy, cyclostratigraphy, and molecular fossils.

Thirteen (13) papers are presented in this volume. The Conference (and this publication) focused on three main points:

Interest Trends in oil companies;
Reduction of risk in exploration;
Data and information transfers from oil companies to academia.

American Association of Petroleum Geologists (AAPG)

Founded in 1917, AAPG is the world's largest professional geological society.

AAPG is a pillar of the world-wide scientific community. Our books foster timely scientific research, advance the science of geology and promote the most efficient methods of energy exploration & processing technology and practices available today.

Some of the areas we publish in include:

Well Log Analysis
Geological Modeling
Carbonate Petrology
Seismic Imaging
Reservoir Characterization
Regional Petroleum Analysis
Tectonics and Sedimentation
Stratigraphy
