Alexander Yakovlev: The Man Whose Ideas Delivered Russia from Communism Richard Pipes

A significant political figure in twentieth-century Russia, Alexander Yakovlev was the intellectual force behind the processes of *perestroika* (reconstruction) and *glasnost* (openness) that liberated the Soviet Union and Eastern Europe from Communist rule between 1989 and 1991. Yet, until now, not a single full-scale biography has been devoted to him. In his study of the unsung hero, Richard Pipes seeks to rectify this lacuna and give Yakovlev his historical due.

Yakovlev's life provides a unique instance of a leading figure in the Soviet government who evolved from a dedicated Communist and Stalinist into an equally ardent foe of everything the Leninist-Stalinist regime stood for. He quit government service in 1991 and lived until 2005, becoming toward the end of his life a classical western liberal who shared none of the traditional Russian values.

Pipes's illuminating study consists of two parts: a biography of Yakovlev and Pipes's translation of two important articles by Yakovlev. It will appeal to specialists and students of Soviet and post-Soviet studies, government officials involved with foreign policy, and general readers interested in the history of Russia and the Soviet Union.
