History and the Historians of Medieval Spain

Peter Linehan

History and the Historians of Medieval Spain Peter Linehan

This is a study of medieval Spain and its historians, from the chroniclers of the middle ages to the revisionists of the post-Franco era. The history of medieval Spain has long been perceived as a tale of original sin followed by a long-drawn-out process of atonement. *History and the Historians of Medieval Spain* traces the development of that perception. It is a formidably researched *tour de force* which reveals history in the making during the eight hundred years which separated the end of the Roman period from what is now described as the birth of the modern state.
