L'acqua (Farsi un'idea) (Italian Edition) Antonio Massarutto

Questo libro discute i termini della "questione acqua" in Italia: quanta ce n'è e da dove viene? Chi la amministra e con quali regole? Chi la gestisce, e con quali risorse economiche? Quanto siamo distanti ancora da un modello di gestione che sappia garantire i bisogni di tutti e insieme salvaguardare le generazioni future? Per colmare questa distanza occorre saper conciliare l'affermazione dei diritti con la consapevolezza che l'acqua è un servizio industriale e richiede organizzazione di uomini, infrastrutture, tecnologia, capitali.
