Landscape Evolution, Neotectonics and Quaternary Environmental Change in Southern Cameroon: Palaeoecology of Africa Vol. 31, An International Yearbook of Landscape Evolution and Palaeoenvironments

Landscape Evolution, Neotectonics and Quaternary Environmental Change in Southern Cameroon: Palaeoecology of Africa Vol. 31, An International Yearbook of Landscape Evolution and Palaeoenvironments

Founded in 1966, the internationally recognized and acclaimed Series 'Palaeoecology of Africa' publishes interdisciplinary scientific papers on landscape evolution and on former environments of the African continent. Beginning with topics such as changes in climate and vegetation cover, the papers expand horizons and interconnections to various types of environmental dynamics from the Cainozoic up to the present; moreover, the aspect of human influence since the Late Quaternary is related to many of the areas studied.

Volume 31 presents four comprehensive papers on long- and short-term processes of landscape evolution (geological history, neotectonics and proxy Quaternary alluvia), as well as a recent regional perspective on environmental problems in Southern Cameroon. The book acts as a showcase for successful North-South cooperation and capacity building for empowering African Universities. It is problem oriented and applied, and illustrates how scientific and interdisciplinary cooperation can work. In the framework of the German Research Foundation's (DFG, Deutsche Forschungsgemeinschaft) funded "Rain Forest Savanna Contact" project (2003-2009) two abbreviated English versions of PhD theses are here published, one by J. Eisenberg on neotectonics and the other by M. Sangen on river sediments in rain forest-savanna transitional zones. Complementary articles are an introduction on geological history, by B. Kankeu et al. and a paper on environmental risks by M. Tchindjang et al., together these complete the results of this joint German-Cameroonian research project.

This book will be of interest to all concerned with ecosystems dynamics, tropical forests, savannas and related development problems of Third World countries, especially regional planners, ecologists, botanists, earth scientists and students of the Quaternary (e.g. LGM and Holocene ecosystem dynamics, Global Change). It will be valuable for advanced undergraduates and postgraduates as a reference for new research articles on the topic of long-term geologic-tectonic and Quaternary landscape evolution in an up-to-now not well explored marginal area of the Western Congo basin.

From reader reviews:

William Gannaway:

The book Landscape Evolution, Neotectonics and Quaternary Environmental Change in Southern Cameroon: Palaeoecology of Africa Vol. 31, An International Yearbook of Landscape Evolution and Palaeoenvironments can give more knowledge and also the precise product information about everything you want. So just why must we leave the great thing like a book Landscape Evolution, Neotectonics and Quaternary Environmental Change in Southern Cameroon: Palaeoecology of Africa Vol. 31, An International Yearbook of Landscape Evolution and Palaeoenvironments? A number of you have a different opinion about publication. But one aim this book can give many data for us. It is absolutely right. Right now, try to closer with your book. Knowledge or info that you take for that, you may give for each other; you could share all of these. Book Landscape Evolution, Neotectonics and Quaternary Environmental Change in Southern Cameroon: Palaeoecology of Africa Vol. 31, An International Yearbook of Landscape Evolution and Palaeoenvironments has simple shape however, you know: it has great and big function for you. You can search the enormous world by wide open and read a guide. So it is very wonderful.

Babara Lopez:

Here thing why this kind of Landscape Evolution, Neotectonics and Quaternary Environmental Change in Southern Cameroon: Palaeoecology of Africa Vol. 31, An International Yearbook of Landscape Evolution and Palaeoenvironments are different and trustworthy to be yours. First of all studying a book is good nevertheless it depends in the content of the usb ports which is the content is as delicious as food or not. Landscape Evolution, Neotectonics and Quaternary Environmental Change in Southern Cameroon: Palaeoecology of Africa Vol. 31, An International Yearbook of Landscape Evolution and Palaeoenvironments giving you information deeper since different ways, you can find any guide out there but there is no e-book that similar with Landscape Evolution, Neotectonics and Quaternary Environmental Change in Southern Cameroon: Palaeoecology of Africa Vol. 31, An International Yearbook of Landscape Evolution and Palaeoenvironments. It gives you thrill looking at journey, its open up your personal eyes about the thing which happened in the world which is possibly can be happened around you. You can easily bring everywhere like in area, café, or even in your way home by train. When you are having difficulties in bringing the printed book maybe the form of Landscape Evolution, Neotectonics and Quaternary Environmental Change in Southern Cameroon: Palaeoecology of Africa Vol. 31, An International Yearbook of Landscape Evolution and Palaeoenvironments in e-book can be your alternate.

Brian Paige:

Your reading sixth sense will not betray anyone, why because this Landscape Evolution, Neotectonics and Quaternary Environmental Change in Southern Cameroon: Palaeoecology of Africa Vol. 31, An International Yearbook of Landscape Evolution and Palaeoenvironments e-book written by well-known writer whose to say well how to make book that can be understand by anyone who also read the book. Written in good manner for you, dripping every ideas and writing skill only for eliminate your current hunger then you still uncertainty Landscape Evolution, Neotectonics and Quaternary Environmental Change

in Southern Cameroon: Palaeoecology of Africa Vol. 31, An International Yearbook of Landscape Evolution and Palaeoenvironments as good book not merely by the cover but also by the content. This is one book that can break don't ascertain book by its handle, so do you still needing another sixth sense to pick this specific!?! Oh come on your studying sixth sense already told you so why you have to listening to an additional sixth sense.

Carmen Vasquez:

What is your hobby? Have you heard this question when you got pupils? We believe that that problem was given by teacher on their students. Many kinds of hobby, Everybody has different hobby. So you know that little person such as reading or as reading through become their hobby. You need to know that reading is very important as well as book as to be the point. Book is important thing to add you knowledge, except your personal teacher or lecturer. You discover good news or update with regards to something by book. Different categories of books that can you choose to adopt be your object. One of them is actually Landscape Evolution, Neotectonics and Quaternary Environmental Change in Southern Cameroon: Palaeoecology of Africa Vol. 31, An International Yearbook of Landscape Evolution and Palaeoenvironments.
