Mass-Mediated Terrorism, Second Edition, an in-depth look at terrorism, political violence, and mass media, shows how terrorists exploit global media networks and information highways to carry news of their violence along with "propaganda of the deed."

To what extent is the media advancing or obstructing the propaganda and policy goals of terrorists and their targets? Has the Internet strengthened the hands of terrorists to organize, recruit, and spread propaganda? How have targets of terrorism used the media to manipulate public opinion and advance their own agendas?

From U.S. cases to incidents abroad, this award-winning book explores the use of political violence for the sake of publicity, media coverage of counterterrorism policies and its affect on political decision making, and the impact of new media. This revised second edition, which includes a new chapter on public opinion, is updated with analysis of the Iraq war, increasing terrorist attacks abroad, and subsequent counterterrorism measures. It also contains new information on the Arab satellite network Al-Jazeera and the use of the Internet in terrorist efforts. *Mass-Mediated Terrorism* offers a blueprint both for effective public information and media relations during terrorism crises as well as for ethical news coverage of major terrorism incidents.
