Lighting for People Photography

Stephen Crain

Lighting for People Photography Stephen Crain

Light is the key element of photography, and understanding the principles of light's color, temperature, intensity, direction, and quality is extremely important in taking quality photos. This book shows how to control these principles to achieve high-quality artistic and commercial photographs of people. The numerous examples and illustrations demonstrate set-ups and results, and the exercises provide practice on the techniques described. With the advice in this book for manipulating studio, strobe, reflected, background, and natural light, consistent results and situation adaptability will come easily to both the novice and professional photographer.
